DAKTRONICS

SCOREBOARDS

LED (light emitting diode) technology for excellent visibility.

Complete line of scoreboards for indoor and outdoor sports.

DISPLAYS

LED message displays show text, graphics, animations and recorded video in amazingly true-to-life images.

Various sizes and configurations so there is a perfect size and color combination for each facility.

VIDEO

LED video displays show animations, statistics, advertisements and live video in 4.3 trillion colors.

Affordable solution for smaller facilities looking for a professional live video experience.

SOUND

Daktronics audio systems integrate into the design of the scoreboard and can include advertising or logo panels.

Ensure excellent sound projection, clear and intelligible speech and a powerful audio experience.
