KYOCERA
Document Solutions

TOTAL
DOCUMENT
SOLUTIONS
FOR
EDUCATION

EDUCATION IS ABOUT SHARING INFORMATION.
KYOCERA IS ABOUT MANAGING IT.

In this rapidly changing digital world, schools and universities need a cost-efficient way to manage documents effectively and securely.

At KYOCERA Document Solutions, we understand the unique challenges faced by Educators and Academic Administrators. With customizable apps—such as Teaching Assistant—and ultra-reliable printers and multifunctional products (MFPs), we can provide your institution with user-friendly, streamlined document workflows that seamlessly integrate into your existing IT architecture.

It's more than a better way to manage your documents. It's a Total Document Solution, and it's only from KYOCERA.

KYOCERA **EDUCATION APPLICATIONS**

Our workflow solutions make it easier to collect, retrieve and store relevant information in educational institutions and school districts.

IMPROVE TIME MANAGEMENT

The KYOCERA Teaching Assistant application makes it easier to create, print, grade and analyze multiple-choice tests using bubble sheet forms. This saves time and allows educators to concentrate more on teaching and lesson plan development.

CONTROL ACCESS

KYOCERA allows you to authenticate and control who can access the network and specific functionality. User access for all devices can be efficiently managed from centralized controls.

RECOVER COSTS

KYOCERA integrates with third-party cost recovery solutions so you can manage, account for, and charge back all print, copy, fax and scan output.

KEEP INFORMATION SECURE

Access restrictions allow you to define who can access, scan and print to each device and each location. End-of-life formatting capability triple scrubs hard drives to ensure data removal when a device is retired.

IMPLEMENT WITH EASE

KYOCERA'S simplified approach to document workflow includes a consistent interface and universal driver for all devices, making set-up and user comprehension a breeze. Our devices work with your existing technology and your current active directory.

GO GREEN

Save student reports directly to USB drive or email, reducing the amount of paper normally required. Administrative controls allow IT to force duplex and restrict unnecessary paper usage.

GET SMART: CUT TEST COSTS

KYOCERA Document Solutions provides an alternative to traditional bubble sheet tests. Print, distribute, scan and grade tests onsite at a fraction of the cost – pay only for the paper you print on!

CAPTURE & DISTRIBUTION

Teaching Assistant
Create, store and print forms directly from a KYOCERA MFP or printer, saving on network bandwidth, storage space and form printing costs.

DMS Link for Education
Simplify document workflow by connecting KYOCERA devices to your document management system to easily scan and index your documents.

AccuSender
Easily scan and distribute large files direct from your KYOCERA MFP with delivery confirmation, password protection, document stamping and automatic routing.

KYOCERA HomePOINT Advanced
Maximize productivity with intuitive scan-to and print-from-home folder features, using KYOCERA MFPs as bi-directional portals for active directory files.

DOCUMENT MANAGEMENT

SharePoint Connector for Education
Use your existing Microsoft SharePoint® server and KYOCERA MFPs to transform paper-intensive environments into efficient digital workflows.

MOBILE & CLOUD

KYOCERA Mobile Print
Simply and conveniently print files, web pages, and images from any mobile iOS or Android device or tablet connected to the same network.

KYOCERA Cloud Connect
Easily retrieve and print files from Evernote® or Google Drive directly from any KYOCERA HyPAS-enabled device.

COST CONTROL & SECURITY

Card Authentication
Allows users to simply swipe their supported ID badge to securely unlock a KYOCERA device, providing immediate access to features specific to their job function.

AccessLock
Improve cost savings and security with the ability to control and limit user group access to specific functions on KYOCERA MFPs.

NETWORK DEVICE MANAGEMENT

KX Driver
Simplify the user experience with a single interface print driver that with fewer clicks lets you find the printing preferences you need most.

KYOCERA Net Admin
Monitor networked and local KYOCERA devices to view usage, configuration, toner and paper levels and more with this Web-based tool for IT administrators.

OUTPUT MANAGEMENT

PRESCRIBE
Create, store and print forms directly from a KYOCERA MFP or printer, saving on network bandwidth, storage space and form printing costs.
