| 1/2/2021 - NOTE-If we don't support his bill then we shouldn't expect higher education to reconsider their admission and graduation requirements for education students. This may also be a way for a small number of high school students to receive a high diploma that otherwise wouldn't graduate. Their diploma does not have to be regular diploma, can be framed as a minimum state requirements diploma. |                            |  |  |

Revise school laws related to participation in extracurricular activities

1/11/2021 - NOTE-This bill is very similar to the same bill title last session. It would allow school districts to claim partial ANB (1/16th for 6 weeks=only hundreds of dollars) for students not enrolled but participated in a sport or activity sanctioned by MHSA, an approved CTSO, or a school theater production.

Revise county school transportation laws

1/4/2021 - This bill comes from Missoula county. We must make sure that correcting something in Missoula county does not create an unintended and unacceptable consequence in another county. The language in the bill appears to do that.

Revise school funding laws related to unforeseen emergencies

1/11/2021 - NOTE-This bill appears to allow for an exception in meeting minimum aggregate hours for a circumstance related to an unforeseen emergency. This bill DOES NOT create an opportunity to close school and receive full state funding in cases similar to COVID-19 closures. The language in this bill is simply coordinating language with 20-9-805 and 806. Clean-up only.
